"DOUBTLESS THE

Best Cough Medicine

IN THE WORLD."

[From one of the Oldest and very best Houses in America.]

MESSRS. CUTLER BROS. & CO.

CINCINNATI, Ohio, March 13, 1872.

Please send us Ten gross small and Five gross large "Vegetable Pulmonary Balsam." **This is doubtless the best Cough Medicine in the World.** (Signed) ALLEN & CO.

P. S.—These parties have sold this Balsam for over thirty years.

[From one of Boston's most estimable citizens.]

No. 5 Worcester Sq., BOSTON, March 14, 1873.

Messrs. CUTLER BROS. & CO.

In ordering another small lot of your *invaluable*

Vegetable Pulmonary Balsam,

I should like to tell you what I know about it, in order that others may have the benefit of my

EXPERIENCE.

Since this Balsam first came to my notice, in 1848, I have kept it *constantly* in the house, never allowing myself to be out of it *overnight*. In all these

TWENTY-FIVE YEARS,

it has not failed in a *single* instance in my own case to give the desired *relief*, and I will say the same in regard to my *mother*, whose

LIFE WAS SAVED

by it as I cannot but think. Hers was a case of *Congestion of the Lungs*, and although attended by a most skillful Physician, who seemed to fail constantly, so that we despaired of her recovery, when an old friend and neighbor persuaded her to try this Vegetable Pulmonary Balsam. The result was most gratifying, I assure you.

RELIEF WAS IMMEDIATE

and recovery rapid. She is now over 80 years old, and is active and well. Whenever she gets a severe cold, which happens once in a while, she takes thirty to sixty drops, according to the violence of the cough, which has always yielded in a day or two by taking the Balsam only on retiring at night. With it the

IRRITATION

is at once subdued, and a good night's sleep secured. I will mention another case, that of a young lady acquaintance, who

BLED AT THE LUNGS

and *coughed frightfully*, had night sweats and was fearfully reduced. She left Boston for her country home, 150 miles away, as we supposed to die. I sent her a bottle of your Balsam, and soon had the satisfaction to hear that she was much better. She continued taking it for a while and got

ENTIRELY WELL,

and is living now, which fact is to be ascribed mainly to the use of the **VEGETABLE PULMONARY BALSAM.** Very truly yours,

JOHN CAPEN.

As there are many imitations, be careful to get the genuine. Price in large bottles, which are much the cheaper, $1.00, small bottles, old style, 50 cents.

RELIGIOUS INTELLIGENCE.

Theo. G. Wilder, of Bates Theological school, has been supplying the Kennebunk and Kennebunkport F. B. church since May last.

The Morning Star says there is an increasing interest in the churches of the Otisfield, F. B. Quarterly meeting.

Rev. Geo. H. Child, of Edgecomb, goes to Tiverton, R. I. Pastorate begins the first of April.

The Argus says that nine persons were baptized at the Chestnut street church, Portland, Sunday, and four received into the church.

The Times says Rev. M. H. Houghton of Bath had accepted a call from the Union Baptist church in Grand Haven, Michigan, upon a salary of $2,500, and will commence his labors there the first of April.

The Quakers contemplate erecting a house of worship in Lewiston or Auburn at an early day. Friend Charles Varney, a prominent preacher of this denomination, is about removing to Lewiston from the West.

Rev. James Fernald of Saco died about half past one o'clock Wednesday morning. He was upwards of 80 years of age and had been confined to the house but a short time. He came to Saco in 1830, and for several years was a Free Baptist minister. For many years past, however, he has been engaged in trade.

Rev. C. P. Nash has arrived in Rockland from Michigan and begins his labors as pastor of the Universalist church next Sunday.

The Baring Baptist church has united with Milltown in supporting a minister having reengaged the services of Rev. R. D. Porter for a portion of his time, after a suspension for nine months on account of financial pressure.

Unusual religious interest prevails in Boothbay. In a district of the town, the teacher of the day school, a young lady, is Superintendent of a Sabbath School, and several conversions have occurred. Rev. E. B. Pike has preached there Sabbath afternoons, and on evenings during the week.

The Unity Free Baptist church is in a prosperous condition. Rev. Mr. Gifford of the M. E. church, and Rev. Mr. Jones of the F. W. Baptist church, have been holding a series of meetings. There has seemed to be some interest and several have been blessed by the influences which prevails. Others are not willing to let go of that which holds us to better things.

After a rigid examination before an Ecclesiastical Council, the Rev. Joseph Torrey was installed pastor of the First Parish Church and Society (Congregational) of Yarmouth, in the afternoon of Wednesday, with appropriate exercises. Mr. Torrey has recently been settled over a church in Hardwick, Vt., and comes to this people as one of the ablest and most devout preachers in New England. This is one of the oldest societies in this country.

The Journal says that on Friday evening of last week the First Baptist church of Augusta, at a very full meeting, extended an unanimous invitation to Mr. Horace W. Tilden of Newton Theological Seminary, to become their pastor. On Sunday last the society endorsed the action of the church by a like unanimous vote. Mr. Tilden is a native of Maine, served as a soldier in the ranks in the Eleventh Maine Regiment during the rebellion, fitted for college and graduated at Colby University. Immediately afterwards entered the theological seminary at Newton, where he will finish his three years' course next June. He is a young man of much promise, and has already three calls under advisement—Augusta, Belfast and Somerville.

[illegible] second District M. E. Conference [illegible] Portland District, for the present conference year, convened at Saccarappa, [illegible] 1st. Monday evening there was [illegible] social meeting. It was a time of [illegible] religious interest. Tuesday morning, [illegible] and, Rev. S. F. Wetherbee was [illegible] Secretary. Several promising [illegible] men were recommended for admission [illegible] the travelling ministry, and two or [illegible] were recommended for ordination, [illegible] I. Luce, C. Munter, S. F. Wetherbee, [illegible] dley, C. F. Dellughs, S. F. A. Pat[illegible] and D. B. Randell and from among [illegible] man, Messrs. Tuker of Portland, [illegible] tch of Cornish, were appointed a [illegible] tee on camp-meeting. The morning [illegible] session of Tuesday was occupied in [illegible] business. Nearly every pastorial [illegible] was reported in a very prosperous [illegible] al condition there having been revivals [illegible] nearly every charge. The Sunday [illegible] s were reported in a very prosperous condition. Tuesday P. M. an essay [illegible] ad by Rev. D. B. Randall on "Personal consecration essential to successful [illegible] an effort." This essay was followed [illegible] a season of prayer for the baptism [illegible] Holy Ghost. It was a season of power and thorough heart searching. [illegible] subject of the "Woman's Foreign Missionary Society," was then taken up, and Rev. A. C. Trafton read a very able [illegible] upon the subject. This essay was [illegible] ed by interesting remarks upon the [illegible] t; several ladies taking part in these [illegible] ses. In the evening the subject of [illegible] ic missions and the progress of the [illegible] denominational work in the district was [illegible] ered, and a very able paper upon [illegible] bject was presented by the presiding [illegible] der. This was followed by remarks [illegible] eral of the brethren. It was voted [illegible] ganize a domestic missionary and [illegible] society in Portland district. Wednesday morning was given to routine business. In the afternoon the subject of Sab[illegible] schools were considered, and very [illegible] essays were presented. These were [illegible] ed by remarks from several brethren. In the evening there was a rousing [illegible] rance meeting. The conference finally [illegible] journed in the evening. This was one [illegible] best District Conferences held.

[illegible] DRINKING HARD WATER.—There is a [illegible] at prejudice that hard water is dangerous to the health, and on that account [illegible] constantly warned by physicians to [illegible] of it, but in England one of the [illegible] g authorities on this subject, Dr. [illegible] by, after devoting many years to an [illegible] gation into the properties of the water [illegible] troduced into English cities, and to a [illegible] of the sanitary reports on the subject, [illegible] to the conclusion that moderately hard water is safer and more healthful [illegible] soft water. Hard water is not only [illegible] colder, more free from air, and [illegible] consequently more agreeable to the eye, [illegible] the taste than soft water but is less [illegible] to absorb organic substances, to [illegible] the life of organic organisms, or [illegible] exert solvent properties upon salts of [illegible] in leaden conducting pipes. The lime salts exert a beneficial influence upon the animal economy, and even protect the system from dangerous outward influences. Dr. Wilson of Edinburg, has also collected valuable material on the subject and gives the same conclusion as Dr. Letheby. He takes the ground that the human body requires for its nourishment and support a supply of certain mineral salts, among which carbonate and phosphate of lime play an important part in building up the compactness of the bones and in other functions. We usually obtain phosphate of lime in our animal and vegetable food, but not from the water we drink. Carbonate of lime, however, is not contained in adequate quantity in our solid food, but generally obtains in spring and well water.

It has been incontestably shown that in mountainous districts, where the water is more or less hard, the inhabitants exhibit the best physical development. On the other hand it is believed that in large cities the mortality is inversely as the hardness of the water supplied to the inhabitants. A water which contains about six grains of carbonate of lime to the gallon, is suitable for use in all household purposes. As a drink, and for cooking food, such a water offers the necessary carbonate of lime for the support of life in the simplest most natural and most easily digested form, and is at the same time more agreeable, fresh and sparkling. It is evident that our preconceived popular notions on the subject of hard water need revising, and that it may be better to use such water than to have recourse to rain or ice water.—[*Western Rural.*

STATE NEWS.

Aroostook.

The North Star says there is more grain in Aroostook being held for good prices than has been held at the same season for a number of years.

Many of the horses in Patten have a distemper which incapacitates them for any work. The throat is swollen and the horse is unable to swallow except with the greatest difficulty.

Two men in Ludlow lately caught two caribou alive and sold them for $100. They have the offer of $300 for two live moose, and are after them. The caribou went to Philadelphia.

Charles and George Wren, of Sherman, caught a deer a few weeks ago and are taming it.

HERSEY. The snow is in places piled in drifts from six to fifteen feet high in the roads. Some farmers are intending to plant potatoes next season for the starch factory at Patten. There is a kind of lung disease going the rounds now, and resembles congestion. All of Samuel Houston's family have been, or are now ill with it.—Owing to the grist mills in this vicinity not running for want of water, many farmers have got on hand all their last year's crop of wheat and they are waiting for the new steam mill in Patten to get to running.

Hunt, Superintendent of Schools; G. E. Wentworth, auditor; John Hall, town agent; F. G. Messer, G. E. Wentworth, J. A. Sherman, constables; F. O. Keating, clerk.

Waldo.

The Progressive Age says that there has never been a time of so general sickness in Belfast as now.

Castine parties, on Friday and Saturday, hauled to Belfast, across the bay, two tons of canned clams, lobsters and blueberries, to go to Boston over the railroad.

The pressure of ice on the vessels moored in Belfast harbor is very damaging to the old and poorer class. The schooner Jack Downing, of the above description, moored near Holt's wharf, is undoubtedly ruined and will be a complete wreck. The ice has crushed in her bilge so she is nearly filled with water, and is only kept from sinking by lashing spars across her to vessels on each side. If she should sink in her present position it would endanger vessels in the vicinity by grounding upon her at low water.

MR. SPEAKER BLAINE.

[From the Chicago Tribune.]

The retirement of Mr. BLAINE from the chair of speaker of the house of Representatives is an event of no little importance. He had filled that place during six years, and in the discharge of the duties of Speaker had displayed a fitness and an ability of the highest order. Mr. BLAINE had served before his election several terms as a member of the House, and was elected Speaker in 1869, succeeding Mr. COLFAX. The position of Speaker is at all times an arduous one, but the duties of the Speaker of the House of Representatives have become during the last decade extremely complicated. To be a successful Speaker, the incumbent of the chair must be a man of ability; to be successful, he must also command personal respect and confidence both of the minority and the majority. It makes no difference how strong may be the party by whom he is elected, he must rely upon the confidence of the whole House, and this he can only retain by being frank and fair in all his rulings. The power of the Speaker is very great—much greater than is generally supposed. Under the peculiarities of parliamentary law, extraordinary powers are necessarily yielded to him; these powers he exercises not so much by virtue of law as by the general acquiescence of the House.—A competent Speaker like Mr. BLAINE, backed by the confidence and respect of the whole House, can greatly expedite business, avoid many seemingly complications, preserve the rights and equality of all the members, and prevent the despotism of a majority. There are always in every party having a large majority a number of extreme men who favor the roughshod policy, and who deny that the minority have any rights which the majority are bound to respect. These men are of necessity at variance with the Speaker, who, as the presiding officer of the whole House, must hold the balance evenly. The sessions of Congress since 1869 have been marked by a succession of two-thirds majorities by the Republican party. The struggle of the minority by factious opposition to defeat the will of the House, and the struggle of an extreme faction on the other side to crush out the minority, have furnished repeated occasions requiring all the ability, energy, unwearied attention, and strict impartiality on the part of the Speaker. Mr. BLAINE has proven himself equal to all the requirements of his high office, and, laying down the gavel at the close of his six years' service, he does so with the universal respect of the whole country, and with the admiration and respect of all those of all parties who have served in Congress under his Speakership.

Mr. BLAINE is a member-elect of the next Congress, so that the country will not lose the benefit of his ability and long experience. He will, of course, take high position as the leader of the Republican minority in the next House. In a House where there will be so many new and inexperienced members, his services will be of incalculable advantage to the House and to the country.

THE SENATE COMMITTEES.

[From the Boston Advertiser.]

The committees of the Senate are elected every session, and the present arrangement is liable to be changed when both houses meet for legislative work next December. In general, however, the changes are not radical, and may be expected to stand without important alteration through the present Congress. Mention has already been made of the outgoing chairmen of committees, and the full list of the new committees has been published. A comparison will, however, show some interesting facts to which attention has not been previously directed. The important committee on foreign relations did not lose one of its Republican members by retirement, unless we count General Schurz a Republican. All six remain in their old order, while the Democrats retain only Mr. McCreery. The committee on privileges and elections lost but one of nine members by retirement, yet three changes are made. Unless the Pinchback case should be referred to it the committee will have very little business. The committee on finance is greatly changed. Messrs. Scott and Fenton have retired from the Senate, and Mr. Wright, who becomes chairman of claims, is left off the committee. The number is increased from seven to nine. This makes five places to be filled, and only four of the old committee are retained. The sentiment of the committee on the currency question is balanced somewhat as it was before. Messrs. Morrill of Vermont, Frelinghuysen, Jones of Nevada, Bayard and Kernan are hard money men, strongly and earnestly, and they constitute a majority. Mr. Sherman and Mr. Boutwell should perhaps be classed in the same category, but their votes are not always forthcoming. The committees on appropriations, on commerce and on the post-office have suffered little change except in the Democratic members and in the chairmen of the two latter committees. The other committees are not very important, particularly in the executive session.

In the distribution of chairmanships the long service of New England Senators has had its usual effect. The two Morrills, Mr. Edmunds, Mr. Cragin, Mr. Anthony and Mr. Ferry of Connecticut retain their old positions. Mr. Hamlin is chairman of the post-office committee instead of that on mines and Mr. Boutwell is chairman for the first time (on the revision of the laws). In the last Congress Messrs. Sprague and Buckingham also had chairmanships. Thus New England has eight in the present Congress against nine in the last. Of those who have only subordinate positions three — Messrs. Dawes, Burnside and Eaton—are new members, and only Mr. Wadleigh has been previously in the Senate. All the old Republican members in the States of New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Iowa, Wisconsin, Minnesota, Michigan, Nebraska, Nevada, California, Mississippi, and all the remaining Republican Senators from all the Southern States, with the single exception of Mr. Dorsey, are also at the head of committees. In importance the committees presided over by New England are more than a fair average.

The increased strength of the Democrats in the committees is evident everywhere. In the old Senate there were but two committees in which the Democrats had three members, and there were two in which the minority was wholly unrepresented. In the new arrangement the Democrats have three members of almost all committees consisting of seven or more, and in two cases the control is given to them; but, of course, these latter are not important committees. The rule of seniority in service, it will be seen, works absurdly, as when it places Senators like Spencer, West, Patterson, Clayton and Conover at the head of committees, while abler and better men are compelled to bide their time.

THE RESULT IN NEW HAMPSHIRE

[From the Boston Globe.]

The Republican victory in the Granite State is on every account a matter for congratulation and rejoicing. The overthrow of a State Government that had disgraced itself by a disregard of its own pledges, by a partisan legislation, and reckless schemes for perpetuating its power, is in itself a sufficient reason for profound satisfaction at the result. And then, whatever may be the differences of opinion, regarding the methods of carrying out the great principles of justice and equal rights to all citizens, and promoting the progress and general welfare of the nation, which constitute the mission to which the Republican party was consecrated years ago, we still believe that to be the mission of the party and have high hopes that it will be fulfilled in the future at least as well as it has been in the past. There could be no greater misfortune than to have the nation drift into the control of the old Democracy at this time. The Republican party has done much to free itself from the reproach that was brought upon it by unworthy members, and there are indications that it is regaining the confidence of the people. It is of great importance that the State campaign of this year shall show results which will give assurance that the Democracy, which loses no opportunity to show how perversely it clings to its old character and how incapable of regeneration it is, shall not get control of the nation; and the indications furnished by the New Hampshire election are cheering. We trust that the Republican party will complete the work of purifying and strengthening its own ranks; and while insisting upon justice, will not forget magnanimity; will deal wisely with questions of finance and economy, and show itself equal to the duties of the hour, which could not be trusted with any confidence to the hands of the Democratic party.

The three northwestern Senators, elected by a union of Republican and Democratic votes, Messrs. Christiancy of Michigan, Cameron of Wisconsin and McMillan of Minnesota, have defined their political views in response to solicitation of the *New York Times*. They reaffirm, what indeed has been often affirmed before, that they are in politics Republicans and nothing else; that nothing in the manner of their election compromises them in their political associations and action; that they fully intend to co-operate in caucus and in the Senate to any reasonable and proper degree with the party majority, while reserving at all times their right of private judgment upon public measure, and the best means of enforcing them. Senator Christiancy also expressed confidence in the success of the Republican party at the next national election, if it should pursue a wise and moderate policy, and hopeful views of the future of the county.—*Boston Advertiser.*

HOW A PROPHET GETS RID OF A WIFE. The *Daily Tribune*, a paper published in Salt Lake City, Utah, evidently not having the fear of Brigham Young before its eyes gives to its readers the following terrible story:

"The wealthy head of the Mormon church in Utah has about as effective a way of ridding himself of obnoxious wives as that of Henry the Eighth of England, albeit it is not quite so summary. Starvation is Brigham's favorite mode of terminating his polygamous entanglements; the slow, agonizing and certain method of murdering the poor slaves of whose faded charms he so readily tires. Thus there is one creature, the oldest, and only lawful wife of this monster, Mary Ann Angell, now in the 74th year of her age, whose vitality has withstood the tyranny of the harem for half a century, and she still lives, a reproach to the system that has degraded her condition to that of serf and drudge. This victim of oppression has recently been assigned a cold and cheerless shelter in the old school house behind the seraglio; one end of that dilapidated structure having been partitioned off, like a stable, or a stall for a cow. Miserably furnished, and in no way a comfortable habitation for person of any age, that dreary tenement is the abode of Brigham Young's lawful wife, and the mother of three of his sons and two daughters. But, this is the Kingdom of God, in which women are taught to bear their crosses at home for the glory that is to come hereafter. The Prophet says so whenever he leads a fresh victim to the closet of concupiscence. We make bold to suggest a visit to the venerable occupant of that dismal prison, from our kind-hearted Executive. He will find there a scene to excite him to the deepest sympathy."

The following bill, intended to nullify the civil rights bill, has been introduced into the Tennessee Legislature:

"Be it enacted, That no hotel or innkeeper shall be compelled to receive or entertain against his or her wishes any person or persons as guests in their houses, for compensation or otherwise, and a refusal to receive or entertain such person or person shall not subject him or her, or them to any civil action for damage or criminal action for character, nor subject them to any forfeiture whatsoever."

Marcellus Emery threatens to read the editor of THE WHIG & COURIER out of the Republican party. We never could succeed in pleasing Marcellus!

POLITICAL AND PERSONAL.

The Democratic party, throughout the country, has been trifling with its opportunity and conducting itself in a frivolous and injudicious manner.—*Springfield Republican*

The Democratic Senators were very kind to Andrew Johnson, giving him the best committee position in their power—Schurz's old place on the Committee on Foreign Relations.

The New York *Times* says, that the Republican party is gaining ground in that State. It is proved, it says, not only by various local elections for minor officials, "but it can also be felt in the air."

The Philadelphia *Press* says of the South: "That down-trodden section, among other cruel indignities, has had voted to it three-fourths of a million of dollars as private damages for losses incurred by the war."

The Republicans of Pennsylvania will hold their State Convention at Lancaster, May 26, and the Democrats will hold theirs at Erie, on Sept. 3. There is said to be no doubt that the former will renominate Gov. Hartranft.

A colored boy was whipped to death in Kershaw county, South Carolina, and the verdict of the jury was that "Boykin White, by misfortune and contrary to his will, by whipping or breaking the neck of, did cause the death of Thomas Berry, on the night of Monday, the 15th of February."

The Vice-President has made a record of the Senators who have served in the Senate with him since Feb. 20, 1855. Of those seventy-seven have died, five have died from Kentucky and six from Texas. Of the Southern Senators, taking the old slave line, there were thirty-nine, and of Northern men thirty-eight.

A Boston correspondent of the New York *Post*, as that paper says, "gives vent to the yearnings of the young men of New England for a new political party, that shall be untrammeled by the questions of the rebellion." He wants Messrs. Blaine, Dawes, Hoar and Pierce to walk into his little parlor. They are very comfortable as they are.

CONSUMPTIVES, TAKE NOTICE.

Every moment of delay makes your cure more hopeless, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pulmonic Syrup, as a cure for consumption, far exceeds all that can be brought to support the pretensions of any other medicine. See Dr. Schenck's Almanac, containing the certificates of many persons of the highest respectability, who have been restored to health, after being pronounced incurable by physicians of acknowledged ability. Schenck's Pulmonic Syrup alone has cured many, as these evidences will show; but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are Schenck's Sea Weed Tonic and Mandrake Pills. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of Consumption may be cured.

Dr. Schenck will be at the Quincy House, Boston, on the following Wednesdays, from 9 to 3 o'clock: Jan. 13th and 27th, Feb. 10th and 24th, and March 10th and 24th. Consultation free, but for a thorough examination of the lungs, with the Respirometer, the price is $5.

Dr. Schenck is professionally at his principal office, Corner Sixth and Arch streets, Philadelphia, every Monday, where all letters of advice must be addressed.

TESTIMONIALS.

H. L. TITCOMB, Esq.

Dear Sir: As you are aware during the recent severe cold weather, I have been "professionally" visiting Maine, during which time I took a violent cold which settled in my back and limbs in the form of rheumatism. Two applications of your invaluable liniment to the afflicted parts during in bed to the first night before retiring, gave instant relief and restored me to my usual health. In my extensive practice I have used various kinds of liniment, but none equal to yours.

Only 35 Cents. An unfailing Remedy for Coughs, Colds, Hoarseness, Asthma, Bronchitis, Influenza, Soreness of the Throat, Chest and Lungs, and all diseases leading to Consumption.

$5000 for an Incurable Case.

[From a Distinguished Lawyer of Boston.]

MR. FRANK KINSMAN. Dear Sir: I desire to say a word in behalf of your Adamson's Cough Balsam. I have been a sufferer from a very severe cough from the first of last November, trying a great many prescriptions without any considerable or permanent improvement, until the middle of March, when a friend brought this balsam to my notice. I tried the small sample bottle which Mr. Goodwin gave me, and I had no occasion to try any more, for within twelve hours from taking the first dose, the cough entirely left me. The result seemed little less than miraculous. I have sent more than a score of sufferers to Mr. Goodwin's, No. 38 Hanover street, for the remedy, and, so far as I learn, in every instance with marked success.
Respectfully yours, CHAS. C. NUTTER.

DOMESTIC NEWS.

SENATE—SPECIAL SESSION.

WASHINGTON, March 12.

The Vice-President presented the memorial of the heirs of William K. Sebastian, Senator from Arkansas, in 1861, asking that the resolution expelling him from the Senate be rescinded; referred to the Committee on Elections. The consideration of the resolution for the admission of Pinchback was resumed, and Mr. McCreery spoke in opposition to it.

The resolution for the admission of Mr. Pinchback was discussed by Messrs. Saulsbury and Christiancy. The latter spoke in opposition to the admission of Mr. Pinchback, agreeing with the report made to the Senate by the late Senator from Wisconsin (Carpenter).

Mr. Christiancy concluded his speech at [illegible] and the Senate then proceeded to the consideration of Executive business. At 3.40 the doors were reopened and the Senate adjourned.

THE TILTON-BEECHER CASE.

Judge Fullerton Still Indisposed.

NEW YORK, March 12. Mrs. Tilton, Mrs. Field and Bessie Turner were in the Court room this morning when the trial opened. Mr. Beecher and his wife and son were seated in the Plymouth gathering. Mr. Fullerton was still absent from illness and his place was taken by Mr. Beach, who stated to Judge Neilson that he would be prepared to continue the case on Monday next.

Samuel Wilkinson Takes the Stand.

Samuel Wilkinson was the first witness. He testified: I reside on Fortieth street, New York city, and was helping to build the Northern Pacific Railroad, and was Secretary of that Company. I have been a journalist for thirty years, and was on the Tribune for three years before the war, and four years during the war. I have known Mr. Tilton fifteen or sixteen years, and Mr. Beecher fourteen or fifteen years. In the fall of 1861 Mr. Tilton came to me at Washington and showed me a letter from Mr. Beecher.

Mr. Beach objected to this kind of evidence as immaterial, and an argument ensued over the point between him and Evarts. The court finally ruled it not material, and must be excluded. Evarts still contended that this evidence was first brought out by the other side on the direct examination of Tilton, and it was certainly a grave matter if the defence were not to give evidence that was imperfectly given by the other side. Judge Neilson said they could not examine all the remote grounds as the evidence might then be extended to an indefinite length, and he therefore held it was too remote and immaterial.

The witness then continued: On the morning of Friday, the 29th of March, 1872, Mr. Tilton came into my office in the Equitable building in New York, he was excited and showed a press proof of an article which he threatened to publish in the Golden Age unless Mr. Beecher did him justice. I remonstrated with him against it and said it would do infinite wrong and injustice. He then said Mr. Bowen had violated his contracts with him in the Independent and Brooklyn Union, and that his dismissal from these papers had ruined and destroyed him; that Mr. Beecher had not come to his help when he could have saved him with his little finger and Mr. Beecher had left him lying where he was with indifference, that he would pursue Mr. Beecher into the grave. I told him this was the wrong way to begin about anything of that kind. I told him Mr. Beecher was sincerely attached to him and was his friend, and that Mr. Bowen would be induced to do him justice and pay the money and terminate the suit he (Tilton) was about to bring against him. Mr. Tilton then appeared to grow happy, he told me he was very glad he had come to my office, as he was going down Broadway he said a sudden inspiration drove him to go up and see his old friend, Wilkinson. He thought the spirits drove him there, and he was glad that he came to see me. Nothing was said of Mrs. Tilton nor did he accuse Mr. Beecher of anything else than refusing to help him when he was prostrate. I returned the press proof to Mr. Tilton that night after I had had an interview with Mr. Beecher. Mr. Moulton called at my office on the day previous with a letter of introduction from Mr. Beecher. After I had read the letter I submitted my plans to him. I told him my plan to avoid the publishing of the scandal and warfare was to get Bowen to pay Tilton the money and let him bring a suit that might drag along indefinitely, that the Golden Age newspaper should be helped, and to that end the columns of the Christian Union might be used. It was also said that the papers in connection with the scandal against Mr. Beecher should be destroyed after the signing of the tripartite agreement.

Mr. Horace B. Claflin, who came before we separated said he had no doubt Mr. Bowen would do all that was said, changes were made at this interview in the rough draft of the agreement. At the second interview between us in Mr. Moulton's study the 2nd of April, 1872, I took the amended draft there in my pocket. Mr. Claflin reported that Mr. Bowen had agreed to pay the money to Mr. Tilton if arbitrators determined the amount. The subject of the tripartite agreement was then introduced, and I read the draft which I had prepared.

Witness was here shown the draft of the agreement and he continued; this piece of yellow paper attached to it with pencil marking was not on it then. Witness read the agreement as drawn up by him, leaving out the additions which he said were afterwards added to it. After I read this paper at the second interview, Mr. Tilton said he would sign it twelve times over if Mr. Bowen would sign it once. Mr. Claflin and Mr. Moulton also expressed themselves satisfied with it. Mr. Tilton was about to sign it, but was stopped by Mr. Claflin, who said it might be necessary for him to tell Mr. Bowen his signature might be necessary before Mr. Tilton would sign it. Mr. Claflin put the paper in his pocket to take to Mr. Bowen. Mr. Claflin returned that evening and said that Mr. Bowen was willing to sign the agreement but had kept it to look it over. It was understood that after the covenant had been signed, all the papers relating to the scandal would be destroyed.

On the evening of the same day I had a conversation with Mr. Tilton, in which he said that Mr. Beecher had made improper proposals to his wife, and that was all the charge he had against him. He then began to tell me of something which he had done for Mr. Beecher's son, Harry, who was in the volunteer service of the army in Brooklyn, where he had fallen into disgrace; that he (Tilton) had gone to see the Secretary of War, and ingratiate himself into his favor; that he had told him of the position in which Mr. Beecher's son was placed, and he gave him a commission for him in the regular army. I next saw the tripartite covenant, about 5 o'clock on the evening of the 3d of April, when it was brought to my office by Mr. Claflin. The yellow paper was then attached to it. About 11 o'clock on that forenoon Mr. Tilton came into the office excitedly and said that he would not sign the agreement unless it was altered. He called for the engrossed copy of the agreement, which was in the safe, and began scratching it and making alterations. I remonstrated with him, but he said that Mr. Bowen and Mr. Beecher were being taken care of, and he would keep himself safe.

I had a conversation at a dinner in Washington about 1864 or 1865 with Tilton in which his wife was mentioned. He asked me if I had seen his wife, and I replied that I had not. He said that I would be disappointed in her, that she was a small woman and not a woman of culture; that he had married her young. He said that he told me this so that I could appreciate the difference between them both after I saw her. I knew Oliver Johnson and persuaded Mr. Beecher to employ him. I spoke to him on Broadway about it in the winter of 1871 or '72. It was not in consequence of anything Tilton said to me that Johnson was employed on the Christian Union. I simply wanted a good managing editor on the paper. This was the only mode by which Dr. Johnson came to be employed on that paper. The witness here identified a slip taken from the columns of the Christian Union as being written by him and not by Beecher. He continued: I knew of the publication of the tripartite agreement so far as it was published. I know the party who was instrumental in its publication, and I am not aware that Beecher knew anything about it.

Cross-examined by Mr. Beach—I have given the interview with Mr. Tilton and Mr. Moulton as far as I can recollect. As I have turned over the matter in my own mind about ten thousand times, the language of the conversations which I have given is the precise language in effect used on these occasions, pretty much of my language was given in the precise words in which they occurred. I recollect the precise words Tilton used the morning of April 3, 1872, when he said to me "he would never sign any agreement which would prevent him pursuing Henry Ward Beecher." He also said that Henry C. Bowen had been well taken care of by Mr. Claflin and Mr. Beecher by me, but that he had been left out in the cold, and he did not see any chance of getting his money.

The court here took a recess.

A Methodist Clergyman on the Stand.

After recess Mr. Wilkinson's cross-examination was completed, and Edward Eggleston was called. He testified: I am an author, clergyman and editor, and reside in Brooklyn. I was associated with Tilton as editor of the Independent, but retired from the paper in July, 1871. In 1867 I became acquainted with Tilton by sight. I met Beecher about the same time, but only became intimately acquainted with him during the past three or four years. In the fall of 1868 or the spring of 1869 I was a guest at Tilton's house. I was talking to them about Beecher, and Mrs. Tilton asked me if I knew him. I said slightly, and she asked me to go to Page's studio with her and make his acquaintance on the next day, but Tilton objected, as he thought Beecher would not like to be disturbed. He told Mrs. Tilton she had better go alone and therefore I did not go. On one occasion at Tilton's house when I was present, a certain lady was there, and Tilton's attentions to her were the subject of remark.

I remember making a subsequent call at the house; Mrs. T. was not there. I saw the housekeeper who told me that Mr. T. was absent. This was at 8 o'clock in the evening. I returned at 9 o'clock and he came in shortly after with the same lady. There was a young lady there who said she was a relative of the other lady. Both of the ladies went away afterwards. The lady with Tilton apologized to the other lady for keeping her out till such a late hour as both of their watches had stopped. On the ferry boat one time we had a conversation about the marriage relation. This was in the summer of 1870. He asked me what I thought of it, or if there might be more than one human love. I replied that I did not know. He asked in relation to uncongenial love what my opinion was. I told him I thought if such people were uncongenial they would in time come together, and he replied they would go further apart.

After a brief cross-examination the court adjourned.

NEW YORK CITY.

General Sheridan.

NEW YORK, March 12. General Sheridan arrived last evening from Washington, and left this morning for Chicago. He will go thence in a few days to Leavenworth, Kansas. He expects to arrive in New Orleans about two weeks from this date.

The Louisiana Committee.

Messrs. Hoar and Frye are expected to be present at the meeting of the Louisiana Congressional Committee. The members who were in attendance yesterday expressed themselves in favor of conducting the examination in private. The press will not be admitted, and the results of the investigation will be published when the Committee have brought their labors to a close. It is expected the Committee will make their report Saturday.

Railroad Consolidation.

It is rumored that arrangements have been made or are now being projected which will result in a virtual consolidation of the Union Pacific and North-Western Railroads, and that the design of the parties interested is to eventually establish direct communication with New York. To this end it is said connection is to be made with the Fort Erie & Black Rock by means of the Canada Southern Railroad, and thence still further east by the Rome, Watertown & Ogdensburg Railroad. From Ogdensburg a line will be run to connect with the Grand Trunk. The control of other Eastern roads is to be obtained, and neither money nor efforts will be spared to bring about a consummation of their plans at an early day.

OHIO.

The Hog Market.

CINCINNATI, March 12. The number of hogs packed in the West from November 1st to March 1st, was about 5,550,000, against last year 5,416,200. Average net weight of the hogs about 3½ pounds less than last year, and the crop in the rounds, about equal to last year. In lard there is an average falling off of about one pound per head.

WASHINGTON.

The Freedman's Bank.

WASHINGTON, March 12. The Freedman's bank is in a worse condition than heretofore supposed, and therefore Commissioners Creswell, Leopold and Purvis have asked to be released from any further responsibility for, or on account of said trust, provided their bond may be released from liability after their retirement and new commissioners substituted in their place. They assign as an excuse for their action a failure to obtain from Congress such legislation as they deemed essential to a proper and speedy execution of the trust reposed in them.

Various Matters.

Senator Alcorn, of Miss., to-day, says that he has changed his mind and will vote for the admission of Pinchback to a seat in the Senate. This is a gain of one for Pinchback.

Senator Johnson has not yet determined whether he will make a speech on the Louisiana question, but will speak or not speak according to the turn which the debate may take.

VERMONT.

A Disastrous Fire.

MONTPELIER, March 12. A disastrous fire occurred here last night. It was discovered first about 12.30 o'clock in the roof of a building on Main street, owned by John Ward. It communicated to the next building, owned by Carlos Bancroft, and from this to the hardware store of Barrows & Peck. The first two buildings were totally destroyed, and the latter saved in a damaged condition. At 2 o'clock the fire was under subjection, so that many persons went home; but at a little before three o'clock, there was another alarm, and a far more disastrous fire followed, lasting until 7 o'clock. This second fire broke out in the rear of the provision store of Orrin Daley on State street, and from there extended east, burning the stores of Charles Town, jeweler; Geo. S. Nichols, clothing; Wilson & Co., drugs and medicines; and the office of J. A. Page, State Treasurer; and west, burning a large brick building belonging to Erastus Hubbard, the jewelry store of A. B. Mead; bookstore of T. C. Chinney; millinery store of W. A. Boutwell, a barber shop, a shoe shop and tailor shop. The second stories of these buildings were all occupied by lawyers, dentists and the clothing store of S. C. Watson & Co. The buildings on State street are a total loss, and were owned by F. J. Hubbard, Ira S. Town, C. W. Storrs, Erastus Hubbard, A. Smith and Eli Bolton. The fire was the most serious that ever occurred in this place.

THE NEW HAMPSHIRE ELECTION.

THE LATEST RETURNS.

Make Up of the Senate, House and Council.

THE CONGRESSIONAL DELEGATION.

Republican Jubilees.

PORTSMOUTH, March 12. The Republicans spend most of their evenings since the election in celebrating. They marched about town all night Tuesday and had another procession with music and bonfires last night. Soon after they had subsided a railroad whistle caused a false alarm of fire and called the people from their beds again. The jubilant Republicans are already laying out their programme for the June Legislature. Dr. Hall of this city is talked of as the probable President of the Senate, and John D. Lyman of Exeter, as Speaker of the House. A special election for our city officers is suggested for the 4th of July.

A Republican Majority of Seven in the House Assured—The Latest Figures.

CONCORD, March 12. The latest figures on the House give **191** Republicans and **179** Democrats, with 4 towns, Clarksville, Errol, Pittsburg, and Hart's Location, to hear from. These are supposed to return five Representatives, all but one of which, Pittsburg, which may be considered doubtful, elect Democrats. With Pittsburg reckoned Democratic, it will give a Republican majority of **7**, but if Republican, of **9**. The election in Hart's Location occurs to-morrow, and the Republicans say that no Representative can be legally elected. If this is true their majority in the House will be **11**, which they claim.

The Make-Up of the Senate—A Republican Majority Sure.

The Senate stands 5 Republicans, 5 Democrats with no choice in Districts Two and Four. In the Second District Priest, Democrat, lacks 31 of an election and in the Fourth Todd, Republican, lacks 21. These Districts will of course be filled by the Republicans on the Assembling of the Legislature, giving them **7** Senators. It is said that Briggs, Republican, in the Third District, will contest the election of Martin, Democratic Senator-elect, on the ground of fraud in Manchester, and should he be reseated the Republican majority in the Senate will be **5**.

The Council.

The Council stands 3 Democrats and 2 Republicans.—The Councillors elected are, Republicans: District 1, Charles A. Foss, Barrington; No. 4, Albert S. Scott, Peterborough; Democrats—District 2, Moulton H. Marston, Sandwich; No. 3, Edward D. Burnham, Hopkinton; No. 5, Jeremiah Blodgett, Wentworth.

The Governor Vote—Cheney and Roberts only 100 Apart.

The Republicans carried 5 of the counties and the other 5 are Democratic. On the Governor vote the candidates, Cheney and Roberts ran within 100 of each other, and the vote of each exceeds 39,000. The prohibition vote will be about 800 when all the towns are in probably. It fell off largely from last year, going to the Republicans.

Congressional Delegation.

The pluralities of Jones, Democratic Congressman-elect from the 1st district, and Blair, Republican in the 3d district, have not been figured entirely, but enough to know that each are elected sure. Kent, the Democratic candidate in the 2d district, is defeated by about 50, probably. The plurality of Bell, Democrat, in the 3d district, is given as 145.

THE SNOW STORM.

Railroads Blockaded—Property Destroyed—A Freshet Coming.

NEW YORK, March 12. A Port Jervis despatch dated last night, says, "To-day's execution on the snow all along the line will undoubtedly be heard from to-morrow in a decided rise in the river. Nitroglycerine experiments have been repeated at intervals in various parts of the gorge. News from the interior says that besides a general blockade of travel on the roads in the country not a little damage was done to property by the great weight of snow."

In Newton, N. J., the storm was accompanied by a terrific wind and sharp lightning. Snow fell to the depth of two feet. A large depot of the Sussex Railroad was demolished by the combined force of snow and wind. The building was 100 by 200 feet in size, and contained a large amount of freight, much of which was of a nature to be ruined by its fall—among the articles being three pianos. Loss $8000. All the railroads leading into Newton were blockaded two days. Drifts from fifteen to twenty feet high formed in many of the wagon roads, and passage was made through some of them by tunnelling. The stage running from Stroudsburg to Milford, Pennsylvania, was forty-eight hours making thirty miles. The Monticello & Port Jervis Railroad is still buried in snow, and probably some days will elapse before operations on it will be recommenced.

MASSACHUSETTS.

Terrible Accident.

BOSTON, March 12. Richard Dunn, one of the workmen employed at the central shaft of the new tunnel being cut under Chestnut Hill from Sudbury river to the reservoir, was putting in a charge for a blast this forenoon, when it prematurely exploded, blowing off his head and one arm and seriously injuring Timothy Sullivan and another workman in the immediate vicinity.

THE BLACK HILLS

Expeditions for Prospecting Purposes to be Stopped.

ST. LOUIS, Mo., March 12. General Sherman being interviewed concerning the action of the government, relative to the Black Hills country, said in substance that expeditions will be prevented from entering that region, or if any have got there they would be driven out as soon as the weather will permit. Troops are to be put in the field, with instructions to prevent incursions into the Sioux reservations, and those instructions will be carried out by force of arms if needed. The integrity of the treaty with the Sioux will be maintained at all hazards. The General said that the frontier people complain of Indian raids, yet in this case do not seem to see the injustice of their own act, which is not modelled after the Indian mode of acquiring property. If necessary, troops will be sent to bring out the party now in the hills.

Banquet to the Prince Imperial.

NEW YORK, March 12. A London letter has the following: The banquet to the Prince Imperial at Woolwich has given rise to a good deal of criticism both there and in France, and there can be no doubt that it ought not to have been permitted. The commander of the garrison, who presided, made an exceedingly fulsome speech in praise of the Prince, and even went so far as to express a hope that the swords of English officers might one day be at his service. It is understood that the Prince is to be attached to the staff of the Duke of Cambridge in some vague indefinite position.

NOTICE TO MARINERS.

The results of the dredging at the bar at Charleston, S C, have been highly successful in deepening the approach to the harbor.

Capt Willbank, of steamer Tonawanda, at Philadelphia March 10th, reports, off Henlopen, the Beacon bearing W by S ½ S, in 11 fathoms of water, saw the wreck of barque Cienfuegos. She lies in the track of Southern bound steamers, and the spars floating around her, make it very dangerous.

The Cornfield Point Light Vessel was yesterday returned to duty. All the lightship stations in this district are now occupied by vessels.

Sch E L Higgins, (of Calais, Me,) Aylward, from Calais for Boston, with cedar posts, put into Herring Gut March 11th for repairs, having lost foregaff and jibboom and broken windlass purchase.

Belfast, Me, March 11. The pressure of ice on the vessels moored in the harbor is very damaging to the old and poorer class. The sch Jacky Downing, of the above description, moored near Holt's wharf, is undoubtedly ruined, and will be a complete wreck. The ice has crushed in her bilge so she is nearly filled with water, and is only kept from sinking by lashing spars across her to vessels on each side. If she should sink in her present position it would endanger vessels in the vicinity, by grounding upon her at low water.

TEMPERANCE AT EAST DIXMONT. *Mr. Editor:*—An interesting temperance meeting was held at East Dixmont on Thursday evening of this week. W. B. Ferguson, Esq., presiding. D. G. Clary of Dixmont, and Mr. Langley of the Bangor Reform Club, addressed the meeting very acceptably on the evils of intemperance. Their remarks were mostly drawn from their own experiences, and from those of their associates. Strong appeals were made to the young men to avoid the first glass which is the first step down the fearful road of intemperance. Fifty-one signed the pledge at the close of the meeting.

L. W. STARBIRD, *Secretary.*

HIGH SCHOOL ENTERTAINMENT. On last evening the excellent programme of the graduating class of the High School was repeated at City Hall, there being a full house present. The drama of "Among the Breakers," and the farce of "Woodcock's Little Game," were given with the same cast of characters as on Thursday night, with the increased advantages of smoothness and a better understanding of the stage business that always succeeds a first presentation. If the members of the Senior Class are as successful in the practical life before them, as in their brief season upon the stage, their friends will have just reason to be proud of them.

"THE HAYMAKERS." On last evening, Root's cantata of "The Haymakers" was given for the second time in the Town Hall, Brewer, to a full house. This composition is of a decidedly popular character, and the musical talent of Brewer was utilized to excellent advantage in its production, Mr. George L. Tarrington, and Mesdames Gardiner, Tozier, Hook, Snow and Libby, appearing in the cast. The cantata was well mounted and appropriately dressed, and the vocalization was decidedly satisfactory to the audience, the several solo parts and choruses being given with excellent effect. The entertainment was given under the auspices of the Young Folks' Sociable, and by special request the cantata will be repeated on next Monday evening.

Early in the season, the Department received notice that ten of the patients who were being supported by the city at the Insane Hospital were to be discharged. As soon as the necessary accommodations could be made they were returned, which was in June and July. About the first of December, another of the same class of patients was returned, making eleven in all. The additional accommodations required for these patients, taken in connection with a long, tedious winter, and many persons nearly or quite out of employment, have added largely to the expenses of the department, as a comparison of this report with that of last year will show.

We mention one item only, namely, the amount paid other towns which, this year, is $1,305.73, while the same item last year was $597.73, the difference of $708 being more than the amount "overdrawn."

In the summer of last year the City Council made a special appropriation of $4,000, to defray the expense of introducing steam into the alms-house for cooking and heating purposes. This was charged to the pauper fund, and is the principal cause of the increased expense of the department. The steam heating apparatus has been put in, and is reported under the head of "permanent improvements;" and proves to be, what its advocates claimed, of "great benefit" to all concerned.

STREETS AND HIGHWAYS.

The report of the Street Commissioner gives in detail a statement of improvements and repairs during the past year, including bridges, culverts, sidewalks, grading, and similar work. The appropriation for this purpose was $30,000, which, with receipts from other sources, amounts to $38,887.92. The total expenditures have been $35,801.47, leaving a balance on hand of $3,086.45, which may prove sufficient to meet the various claims for damages in this department, which have been brought against the city during the year. The report contains several recommendations for the consideration of the new City Council.

[illegible] Affair.

One of the most delightful social events of the season was the reception given, at the Bangor House last night, by Mr. and Mrs. Henry McLaughlin, of Cedar street. Within the past week about three hundred invitations were issued for this occasion, and fully that number of ladies and gentlemen paid their compliments to the host and hostess last evening.

The entire suite of apartments on the north side of the second floor were thrown open for reception and dressing rooms, and the dining hall, which is admirably adapted to the purpose, was used for dancing. Many times has it been the scene of rare pleasure, and by 10 o'clock the many happy reminiscences of the past were fully revived by the brilliant assemblage, comprising representatives of the oldest and best families in the city, and including a large proportion of those best-known in society.

At 11 o'clock refreshments were served from the breakfast room, where the tables were attractively spread, doing the amplest credit to the *cuisine* of the establishment. Dancing was resumed before midnight and continued till the small hours, and as the guests made their adieux regrets were universal and sincere that the happiest hours are so soon gone.

The music furnished by members of Andrews' orchestra could hardly have been improved, and with Mr. Kimball at the piano, lovers of terpsichorean pleasure had nothing left to desire. As is his habit, Mr. Shaw, proprietor of the hotel, did everything that a long experience could suggest to render the hospitalities of the occasion generous and complete.

Accident to a Train.

Yesterday afternoon, when the incoming St. John train was about a mile east of Eaton, or Jackson Brook, one of the parallel rods of the locomotive was broken, and passing up through the engineer's seat, threw him to the other side of the cab, but miraculously he escaped death or severe injury. The other parallel rod was cracked by the strain, and at Mattawamkeag the locomotive was changed for another.

While nearing Basin Mills, and within a few rods of the station, being about an hour late at the time and running at full speed, an axle broke under the tender, and the disconnected wheels, catching in the flanger, threw it across the track. The engineer promptly reversed and whistled down brakes, and it was only by good fortune that the entire train escaped being sent over the embankment at this point. The flanger and disabled locomotive were got onto the siding and the train was brought to this city by the Mattawamkeag train, which was sent up for the purpose, arriving here shortly after 6 o'clock, or over three hours behind time.

At this season of the year the action of the frost on the rails renders it impossible to anticipate or provide for all disagreeable contingencies of railroad travel.

THE GREAT REPUTATION
Which VEGETINE has attained in all parts of the country as a
Great and Good Medicine,
and the large number of testimonials which are constantly being received from persons who have been cured by its use, is conclusive proof of its great value. It is recommended by physicians and apothecaries. As a Blood Purifier and Health Restorer, it has no equal.

VEGETINE is not prepared for a fancy drink made from poor liquors, which debilitates the system and tends to destroy health instead of restoring it.

Are not the many testimonials given for the different complaints satisfactory to any reasonable person suffering from disease that they can be cured? Read the different testimonials given, and no one can doubt. In many of these cases the persons say that their pain and suffering cannot be expressed, as in cases of Scrofula, where, apparently, the whole body was one mass of corruption. If VEGETINE will relieve pain, cleanse, purify and cure such diseases, restoring the patient to perfect health after trying different physicians, many remedies, suffering for years, is it not conclusive proof, if you are a sufferer, you can be cured? Why is this medicine performing such great cures? It works in the blood, in the circulating fluid. It can truly be called the *Great Blood Purifier*. The great source of disease originates in the blood, and no medicine that does not act directly upon it, to purify and renovate, has any just claim upon public attention. When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the VEGETINE will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels and impart a tone of vigor to the whole body. The conviction is, in the public mind as well as in the medical profession, that the remedies supplied by the *Vegetable Kingdom* are more safe, more successful, in the cure of disease, than mineral medicines. VEGETINE is composed of roots, barks and herbs. It is pleasant to take, and is perfectly safe to give an infant. Do you need it? Do not hesitate to try it. You will never regret it.

CANNOT BE EXCELLED.
CHARLESTOWN, March 19, 1869.
H. R. STEVENS:
Dear Sir—This is to certify that I have used your "Blood Preparation" in my family for several years, and I think that, for Scrofula or Cankerous Humors, or Rheumatic Affections, it cannot be excelled; and, as a blood purifier and spring medicine, it is the best thing I have ever used, and I have used almost everything. I can cheerfully recommend it to any one in need of such a medicine.
Yours respectfully,
MRS. A. A. DINSMORE,
19 Russell Street.

WHAT IS NEEDED.
BOSTON, Feb. 13, 1871.
HENRY R. STEVENS, Esq.
Dear Sir—About one year since I found myself in a feeble condition from general debility. VEGETINE was strongly recommended to me by a friend who had been much benefited by its use. I procured the article, and after using several bottles, was restored to health, and discontinued its use. I feel quite confident that there is no medicine superior to it for those complaints for which it is especially prepared, and would cheerfully recommend it to those who feel that they need something to restore them to perfect health.
Respectfully yours, U. L. PETTENGILL,
Firm of S. M. Pettengill & Co.,
No. 10 State St., Boston.

GIVES HEALTH, STRENGTH AND APPETITE.
My daughter has received great benefit from the use of the VEGETINE. Her declining health was a source of great anxiety to all of her friends. A few bottles of the VEGETINE restored her health, strength and appetite.

H. R. STEVENS, Esq.:
Dear Sir—I have had Dyspepsia in its worst form for the last ten years, and have taken hundreds of dollars' worth of medicines without obtaining any relief. In September last I commenced taking the VEGETINE, since which time my health has steadily improved. My food digests well, and I have gained fifteen pounds of flesh. There are several others in this place taking VEGETINE, and all have obtained relief.
Yours truly,

Pierce's Rheumatic Cure
FOR RHEUMATISM & NEURALGIA.
A TRIED AND SURE CURE.

This remedy is the result of the knowledge of one of the proprietors who had been a great sufferer for years, and who had tried all the [illegible] treatment and the skill of many physicians without obtaining relief. A radical cure was obtained, and numerous similar cures effected among his friends and acquaintances, without an exception, have induced him to put it before the public. It was got up without a thought of making it an article of merchandise, but the numerous and increasing demands for it as its merits have become known, have induced him to advertise it for the benefit of sufferers like himself.

It is an infallible remedy, if perseveringly used, for those painful maladies of Rheumatism and Neuralgia, as testimonials, too abundant to give in this advertisement, will show. Among these testimonials are those of Mrs. Judge Appleton, R. M. Talcott, J. M. Morrill, (foreman of Hinckly and Holt's Foundry) C. H. Emery, and others of Bangor, W. J. Mitchell, of the Eveleth House, Moosehead Lake, Alvarado R. Orcutt, of Eddington, a sufferer for fourteen years, and at times helpless, having tried the best known remedies and three skillful physicians without effect, after using seven bottles, has been restored to health, and gives his grateful testimonial.

It is an internal remedy, acting on the blood, freeing it from impurities and imparting free and healthy action to the system. It may be used by children and those of the most delicate constitution with perfect safety. Full directions with each bottle.

Price per bottle $1.00. Liberal discount to the trade. For sale by Druggists generally.

WISHING AND HAVING.

BY R. H. STODDARD

If to wish and to have were one, my dear,
You would be sitting now
With not a care in your tender heart,
Not a wrinkle upon your brow,
The clock of time would go back with you
All the years you have been my wife,
Till its golden hands had pointed out
The happiest hour of your life,
I would stop them at that immortal hour,
The clock should no longer run,
You could not be sad, and sick, and old—
If to wish and to have were one.

You are not born in the winter, my love,
The snow is not whirling down;
You are in the heart of the summer woods,
In your dear old seaside town,
A patter of little feet in the leaves,
A beautiful boy at your side;
He is gathering flowers in the shady nooks—
It was but a dream that he died!
Keep hold of his hand and cling to him,
No mother under the sun,
Has such a seraphic child as yours—
If to wish and to have were one

Methinks I am with you there, dear wife,
In that old house by the sea,
I have flown to you as the bluebird flies
To his mate in the poplar tree
A sailor's hammock hangs at the door,
You swing in it, book in hand,
A boat is standing in for the beach,
Its keel now grates on the sand,
Your brothers are coming—two manly men,
Whose lives have only begun;
Their days will be long in the land, dear heart—
If to wish and to have were one

If to wish and to have were one, ah me!
I would not be old and poor,
But a young and prosperous gentleman,
With never a dun at the door;
There would be no past to bewail, my love,
There would be no future to dread,
Your brothers would be live men again,
And my boy would not be dead
Perhaps it will come right at last,
It may be when all is done,
We shall be together in some good world,
Where to wish and to have are one

THE LATEST FASHIONS.

SPRING SUITS.

Imported costumes for spring are made up partly of silk and partly of wool goods of light quality, either plain, plaid or striped. The silk forms the lower skirt and sleeves, the basque and overskirt or apron are of wool. The two fabrics in a suit are usually of kindred shades of one color, though quiet contrasts, such as gray with brown or violet, will be much worn. The fashion of making French suits is similar to that in vogue at present. The basque and apron will prevail, yet the round overskirt and the polonaise will not be wholly abandoned. The close cuirass, smoothly fitted and plainly trimmed, remains the popular basque, yet some new basques have elaborate trimmings in the way of horizontal folds put on in vest shape in front, and graduated to a point behind. The neck is cut very high, and fully trimmed, shoulder seams are very short, sleeves are close coat-shape, and are often of different material from that of the basque; concave cuffs and clusters of folds, or else shirred bands, trim the wrists, a belt of some kind is added to most basques.

New aprons are longer and more clinging than those worn at present. They extend within an inch or two of the bottom of the front breadth of the dress skirt, and in some cases are without seams, being made of but one breadth of double-width goods; yet even these narrow aprons are drawn back to meet on the tournure, where a tastefully-draped sash gives the slight drapery now considered necessary for the back. There are also aprons that are square on one side and rounded on the other, while another style is pointed low on one side in the Grecian fashion.

Lower skirts are not altered in shape, and the first importations show commendable simplicity in their trimmings. A bias gathered flounce, headed and edged with narrow side plaiting sewed on as a ruffle—that is, with a rough seam on the under side—is the trimming of some of the handsomest skirts. The side plaiting only is used on the apron and basque. The novelty in the favorite shirring is to shirr the flounce in lengthwise rows, making puffs downward instead of around the skirt.

LINEN SUITS.

The early unirnessed linen suits found so pleasant for many summers past are being made up in large quantities at the furnishing houses. They are made with a view to service and are without flounces or any elaborate ornament. The skirt has a facing headed by a single bias band, three or four inches wide, stitched on with a piping or without. The deep apron has two straight wide sash ends behind, edged with a narrower bias band. These straight sashes are each sewed to the belt in a double box-plait, and caught up lower down by tapes to form a drooping loop. A white side-plaited blouse or chemise Russe completes the house dress, while for the street is a linen sacque of most stylish shape, cut with an English back that is much shorter than the long single-breasted front. Such suits are serviceable, inexpensive and easily laundried. We commend them as excellent models to correspondents who have made inquiries about summer wardrobes.

NOVELTIES IN MILLINERY.

Some gilt and silver is being introduced for bonnet trimmings in the way of gold and black galloons for bindings, and filigree silver buckles, also gold leaves with flowers of natural hue. One of the most tasteful round hats is of white chip with high crown and straight brim. A scarf of soft twilled white silk is wound around the crown, and fastened by a silver filigree buckle, which also holds a fan plait of black velvet on the left of the front. White lilies-of-the-valley are clustered on the left side of the crown. The brim is faced with black velvet.

A distinguished-looking bonnet for a brunette is of white chip with cardinal gros grain facings inside. Around the crown is cardinal silk with darker reddish-brown, and carnations of these two shades. A French hat with a halo brim has this brim faced with galloon of gilt and black velvet. Scarfs of white and black twilled silk are around the crown, and the flowers are soft pink roses without foliage.

To wear with the new Madras suits of high colors is a white chip bonnet trimmed with pink and black gros grain and red and yellow roses. Still another has a scarf of the new blue-gray faced with the pale cream color, while inside the brim is a black velvet roll supporting pink roses. Cardinal red is associated with pale drab on the French hats. Cap crowns in soft puffs are made of the new damask brocades, and are seen on chip and rough-and-ready braids. Gilt oats and wheat, with branches of jets are used on French bonnets, also jet stars among black daisies or scarlet poppies. Artemisia of darkest hues, snow-balls of color as well as white, chrysanthemums, daisies, dahlias and other crisp, compact flowers are offered as rivals to the more graceful wistaria, drooping lilies, long-stemmed buds and the lovelle-troses that blow.

GLOVES.

Spring importations of kid gloves display innumerable shades of gray and brown to match new costumes. There are the clear French grays, steel, blue-gray, and the entire range from cool light hues to the darkest serviceable shades. In brown are all the nut shades, and many bordering on green. Instead of the mongrel hues of two years ago we have a revival of putty colors, fawn, drab, snuff-brown, ashes-of-roses and other old-fashioned soft tints. Lilac shades have been banished too long and appear now with pink and blue tinges. Oak-brown shades that were once so popular are again imported for wearing with black toilettes.

Lavender is the conventional name for a host of delicate pearly tints worn on dressy occasions. Cream shades are now approved for carriage, opera and full-dress toilets. White gloves, pure and simple, are restricted to white toilets, brides and bride-maids. All pale yellow tints, such as primrose, straw and salmon, are chosen for church, visiting, matinees, etc.; salmon and flesh colors have more pink in them, and the new straw shades border on green. Black gloves have been considered very stylish this winter, having even appeared in proscenium boxes at the opera, and they were worn by leaders of fashion at the Academy balls. Those with scalloped tops and long wrists fastened by four buttons, are handsomest. Plain untrimmed gloves without ornamental stitching and long enough to require three or four buttons at the wrist, are the refined choice; nevertheless there are people who want ornament everywhere, and for these are added rows of black or white stitching on the outside of the glove. The unsightly fashion of putting rows of braid on the back of gloves adds to the apparent breadth of the hand, and is condemned as "loud" by people of taste. Readers are warned that instead of the prices of good gloves being reduced, they will probably advance, as the cost of fabrication in France is increased ten per cent. Lisle-thread gloves fashioned like kid were worn last summer by people of taste, and are especially liked by those who have slender, shapely hands. They are of gossamer fabrics in mode, buff and white, are inexpensive, and will wash well. They cost from fifty to eighty cents, and are fastened by from one to four buttons. Fine soft castor gloves, so good for bleaching the hands, are now imported in better qualities than formerly, and are made up like kid, with long wrists and no fanciful stitching. They are excellent for travelling, driving in phaetons, riding, and country wear generally. Those with three buttons cost $2.25. The English taffeta silk gloves are now perfected in shape, and are made of fabrics that do not "creep" as did the wiry silk once used in them. They cost from $1.25 to $1.75 a pair, according as they have from two to four buttons. Ladies just returned from abroad are buying black lace mitts in regular Chantilly patterns, wrought inside as well as out. The handsomest reach half-way to the elbow, and cost $6.50. Short lace gloves begin as low as 60 cents a pair.

NEW DRESS GOODS.

Dycor cloth is a new fabric for dresses. It is a thick, yet soft, silk-like heavy pongee. It is imported in plaids of écru with brown or black bars, and the plain écru and cream goods to match. "Louisine" is the name given the soft basket-woven and twilled silks to be used for summer costumes. It comes in pin-head checks, broken plaids, and blocks of black with white, blue upon blue, buff with blue, and in the high Madras colors now so fashionable in Paris. It costs from $2.50 to $4.00 a yard, and is single width. Buretta or drugget cloth is the name given a silk and wool fabric of rough surface, not twilled, but with raised knotted threads of brown or gray upon white. This is spoken of by French writers as very stylish for costumes. *Toile l'Oriental* is all silk tissue in open checks like the Mexicaine of last summer; price $2.50 a yard. Algerine for overdresses and linen grenadines are in écru checks and stripes; others have blue mixed with them, and show very quaint colors. There are also écru organdies in checks and stripes, and colored grenadines sold as low as 40 cents a yard.

Among the best wool fabrics for spring suits are plain and plaid de beges, some twilled, some loosely woven in new gray and brown shades, and all of excellent quality. They cost from 50 to 75 cents a yard.—[*Harper's Bazar.*

The Multiplication of Diseases.

Diseases multiply. One begets another. A trifling indisposition may, therefore, originate a combination of dangerous maladies. Indigestion begets far more formidable diseases. A multitude of ailments are traceable to constipation, fever and ague [illegible] the entire nervous system, and is therefore the source of [illegible] ailments which affect portions of the human organism. Hostetter's Stomach Bitters, however, whether resorted to at the inception of the first disorders of the stomach, bowels or liver, which give birth to the majority of diseases and disabilities, or after they have ripened into formidable maturity, are alike powerful to cure. The process of recovery is, of course, longer when the malady has gained headway, but it is none the less certain. Dyspepsia, constipation, biliousness, kidney complaints and intermittent fever, invariably yield to the operation of the great alternative and invigorant. d&w mar12

GILES'

LINIMENT IODIDE OF AMMONIA.

A MESSAGE TO THE SUFFERING.

When a remedy is productive of such relief as to excel all other remedies in its curative results, it is a duty to make it known as generally as possible. This consideration has actuated the proprietor, WM. M. GILES, to bring before the public his LINIMENT IODIDE AMMONIA.

The remarkable cures it has effected classes it as one of the most important and valuable remedies ever discovered for the cure and relief of pain in any form. It cures Neuralgia, Face Ache, Rheumatism, Gout, Frosted Feet, Chilblains, Sore Throat, Erysipelas, Bruises and Wounds of every nature, in which the effects of external application are almost magical, and in which its internal administration is found to be most efficacious. Physicians prescribe it for their patients and accord it their concurring approval as an invaluable discovery.

The LINIMENT IODIDE OF AMMONIA is [illegible] as an ointment in all well regulated stables, and where large numbers of horses are provided for, and where there is a liability to the visitation of a class of epidemic diseases for which this preparation is a recognized remedy. No stable should be without it, for no stable can really be [illegible] safe that is not supplied with it.

We append a few of the many testimonials bearing testimony to the universal favor with which this medicine has been received by the public

Testimonials.

In stiffness and soreness of the muscles and joints, rheumatic pains, I have experienced immediate relief from GILES' LINIMENT IODIDE OF AMMONIA.

NEW HAVEN, Aug. 7, 1874

DR GILES—While on duty as fireman on engine 47, about ten miles from this city, on Shore Line Road, was accidentally thrown off against a rock, train under full headway, about thirty-five miles an hour. Was very badly bruised. Your agent was on board. He furnished me with two bottles of LINIMENT IODIDE OF AMMONIA, from which I received the greatest possible benefit. In four days I was able to resume work, and am now ready to commence work. My aged mother also used the Liniment for rheumatism, which it cured.
JOHN GAFFNEY.

BARNUM'S HIPPODROME.—We have never found anything equal to GILES' LINIMENT IODIDE OF AMMONIA. Bruises, wounds, stiffness, lameness, pains in the muscles, swellings immediately disappear. Veterinary Surgeon, 330 West 25th St.

BOSTON, July 15, 1874

MR. W. M. GILES.—In the match between the Athletics of Philadelphia and the Boston Club, played July 13th, 1874, at Boston, I fell and displaced my left knee cap. Your agent fortunately happened to be present. He instantly applied your Liniment, and with instant relief.

BOSTON, Sept. 14, 1874.

MR WILLIAM M. GILES, *Chemist*: DEAR SIR—Your Agent, Mr. Guy S. Frazey, called on me early in July last to introduce your LINIMENT IODIDE OF AMMONIA. Being a skeptic in regard to the great variety of articles patent for the cure of all sorts of diseases, I had no faith in your Iodide, but, after a long discussion with your agent, it occurred to me that I had a horse I was using for private that had a shoe bile on his near forward leg. I told him if he thought it would remove that bunch, I would try it. Suffice it to say, I have used it very persistently till the present time, and I now find it nearly removed, and think it will shortly disappear entirely. From this trial of your remedy I cheerfully recommend its use to any one who has a horse or horses afflicted in this way. I would further say that, while using it for the above, the same horse started another bunch on the off leg, the Liniment was applied immediately, and the bunch has disappeared.

To Young Ladies, Teachers and Parents!

AN OPPORTUNITY

FOR EUROPEAN STUDY & TRAVEL,

At Very Moderate Cost.

A lady of culture and some literary attainments, (a native of this State) having joined the select class that will go abroad in April with Prof A. J. Ebell, Director of the International Academy of New York and Berlin, solicits correspondence with ladies who desire to accompany her, also with parents who would like to place their daughters under her more especial care. Unsurpassed advantages for culture and enjoyment are offered at less than one-half what their cost would be to parties not possessing the facilities perfected by the International Academy, under plans which have been in successful operation three or four years.

No loss, illness, or accident of any kind whatever, has attended any one of the previous tours. Invalids have joined the classes, and returned in blooming health.

THE LINE OF TRAVEL lies through Scotland, Germany, comprises ten weeks' stay in Berlin for study, the rest through Austria, Italy, Switzerland, Belgium, France and England.

EXPENSES of the entire term of five to six months, comprising first-class travel and board, carriage rides whenever desirable, cost of sight-seeing, music, concerts, etc, lecturers' and professors' fees in Berlin, *private lessons* and class instruction from the best teachers in music, the languages, drawing, etc., the attention and services of a lady directress, and the course of lectures to be given daily on history, art criticism, and subjects concurrent with the tour, by Prof. Ebell, who has been over most of the ground twelve times—will be $850, gold in advance.

A second party of more general tourists will leave in June under H. B. Colt, General Manager, and join the main party in Berlin, taking a brief stay, will go over the entire route, and both will return together to New York about the middle of September.

LETTER CARRIERS.

All letters are delivered free by carriers when addressed to street and number. People should inform their correspondents of above and have their letters addressed accordingly.

Persons leaving their address at the General Delivery can also have their letters sent, but it is much more convenient to have the street and number on, and they will be delivered earlier than if the same is put on at the office. Carriers make two deliveries daily, the first trip supplying the extremes of their routes.

Collections are made morning and evening in season for important mails—the down town boxes fifteen and the up town boxes thirty minutes before closing mails at the office.

Holidays and Sundays the Carrier's Window will be open for the delivery of letters from 8½ to 9½ A. M. Also open evenings from 8½ to 9 P. M.

Any irregularities in the Carriers' department should be reported to the office.

ENVELOPES.

No additional charge will be made for printing the name and request to return, across the left hand upper corner of the envelopes furnished by the Post Office Department, (samples of which may be seen at the Cashier's window,) when ordered in lots of not less than 500.

A request for the return of a letter to the writer, if unclaimed within thirty days, or less, written or printed, with the writer's name, post office and State, across the left end of the envelope, on the face side, will be complied with.

The public are earnestly recommended to procure stamped envelopes with printed return request, as the expense is less, and letters thus endorsed, if not delivered to the person addressed, are returned to the writer free of charge.

First class envelopes of above furnished at $3.85 per thousand.

Stamps cut from Stamped Envelopes

cannot be used to prepay postage. The use of such Stamps is punishable by a fine of fifty dollars.

Stamped Envelopes, spoiled in directing, are redeemed at the office.

County papers free, except to letter carrier offices, the papers coming to this office, if published in County, are subject to postage. Daily papers published in County, if delivered by carrier, one cent each, to be prepaid by stamps.

Another year of the Marvelous Scientific results of the application of the principles of

BIOMETRY,

Or the Measure of Life.

What is That?

It is the science and art of revealing the probable length of life of a person—deducing it from his *Ancestry, Constitution* (the measure in size, form, color and constitution of its various parts, being the *signs* and *Indications*), *Habits, Vocation, Residence, Intelligence, Instincts, Health, Age*, and what ever else, if else there be, which can affect the potentialities of life

By the application of this science, Life Risks can be

as in Fire and Marine Insurance, and thus, and only thus, can

EQUITY TO ALL CLASSES,

AND THE

Lowest Cost of Premiums

TO THE

BEST GRADES,

With perfect security be obtained

Lowest Cost. Perfect Security.

TERM-LIFE (LABOR-TERM) INSURANCE, "NATURAL-PREMIUMS."

What is That?

It is adapted to secure to a family, in case of the decease of the breadwinner during the period of his productive labor, an income corresponding to the yearly avails of that labor

"Natural Premiums" is the true plan of "pay the yearly cost," or "pay as you go," and put nothing into a company which, both on account of cost and security, may better be kept by the assured

The two SCIENTIFIC Ideas above named are as yet fully applied only by the

AMERICAN

POPULAR

LIFE INSURANCE

COMPANY.

The idea of GRADING AND RATING Life Risks cannot be applied by any other company already started, since, if it should adopt the method of grading, the *best risks* now insured in it would of course drop their present policies to take out better ones, to wit, at the lower premiums to which *they* are entitled, but the inferior risks would stay, and pay the premiums so much less than they ought to be for *them*.

The idea of *Term-Life "Natural Premiums"* is not applied by the other companies, because, as they say, they would not, on their "average" plan of taking all insured persons at the same premiums, get enough to cover the expense of their numerous losses

Hence, all other companies "make faces" at the American Popular, and "call names," about which it does not care a fig, if it can only, as it does, secure the approbation of the scientific and thoughtful, and the patronage of the probably long-lived!
